Summary

- Half of respondents think the government's anti-crisis measures will NOT be effective.
- Less than one quarter are those who think that anti-crisis measures will be working.
- 34% respondents who think that government manage the country properly.
- 15% of respondents agree that the country will overcome the crisis by 1 year, 26 % think they will need more than 1 year, and 42% give a period for two years or more years.
- Most worrying for Bulgaria are rising unemployment - 29% and aggression among children 22%. These two indicators are interconnected, the pressure on the parents and the helplessness of the people is a direct impact on children's behavior.

Summary

● Trust in the print media is only 2% and 1% in radio. 23% do not believe in any kind of media. 27% believe the television, and 43% trust the Internet as the most free and independent source of information.

● 59% of people in Bulgaria feel satisfied with their lives. 20% are adamant that they are unsatisfied and 21% are neither satisfied nor unsatisfied.

● If there were elections 38% of people said they would not vote.

● 35 % would support government's party.

● In general people in Bulgaria are dominated by moderate pessimism. Optimists are small and not clear. People looking for a clear political vision for government, trustworthy sources of information, no doubt about manipulation on them.
